Event Photography - \$160 for the first two hours

General Information:

- All sessions include:
 - o Unlimited clothing changes.
 - o Unlimited poses.
 - o No set limit of shots taken, or proofs.
- All images will be provided digitally on a cd or dvd and you will receive 'printing rights'. These are basically the digital images or 'negatives' that are used to make prints at any photo lab of your choice. Web-sized images are also provided.
- Your Photo Gallery will be hosted online for LIFE. This allows you to share your images easily with friends and family, and prints may be purchased at any time directly through the website. A professional photo lab processes the images, and mails them directly to you.
- Online Photo Gallery may be password protected.
- A single effect may be applied to each image at no charge. This is provided as an additional image so that you still retain the original image.
- For in-studio shoots, you may select from a wide variety of solid colors and various patterns for the background.
- If you are looking for a more interesting background, I recommend going the route of an On-Location shoot. This gives a much wider variety, and much more creativity.
- Hair and/or make-up is not included in the price of any session. There generally are professional MUA's available in most areas, but this is an additional charge.
- Your satisfaction is 100% GUARANTEED.
